TELEGRAM

R. O. K.

NO. TS-81146

"CONFIDENTIAL"

DATE. 162200

CLASSIFICATION

TO. OFFICE OF THE PRESIDENT.

TODAY I MET HANAMURA, JAPANESE MINISTER OF JUSTICE AND TOLD HIM THAT I ACCEPT HIS PROPOSED ARRANGEMENTS WHICH WERE REPORTED TO THE GOVERNMENT ON SATURDAY. I MADE IT CLEAR THAT JAPAN SHOULD RELEASE ALL THE PRE-WAR-KOREAN DETAINEES FROM THE DETENTION CAMPS AND THEN R.O.K. WILL RELEASE JAPANESE FISHERMEN WHO COMPLETED THEIR PRISON TERMS AND ACCEPT DEPORTATION OF SIMPLE ILLEGAL ENTRANTS AFTER 1945. AND BOTH HE AND I AGREED UPON THE SAID MEASURES. AFTER I CAME BACK TO MY OFFICE FROM THE JAPANESE JUSTICE MINISTRY, I MADE PRESS RELEASE TO THAT EFFECT IN ORDER TO MAKE IT KNOWN TO THE PUBLIC, THEREBY THE JAPANESE GOVERNMENT BEING UNABLE TO CHANGE ITS ATTITUDE. THIS EVENING HANAMURA TELEPHONED ME THAT WHAT HE AGREED WITH ME THIS AFTERNOON SHOULD BE PASSED BY HIS CABINET. SO I WARNED HIM THAT THE MATTER POINTED OUT BY HIM WAS NOTHING BUT INTERNAL PROCEDURES OF HIS GOVERNMENT AND ACCORDINGLY, HIS AGREEMENT WITH ME ON THE RELEASE OF THE KOREAN DETAINEES SHOULD BE WORKED OUT WITHOUT DELAY.

Journal of Management Inquiry 21(1) 3-19

1. The first step in the process of the investigation is to identify the problem. This is done by the investigator, who is usually a member of the research team. The investigator will then conduct a literature review to determine what has been done in the past. This will help to identify the gaps in the knowledge and to determine the scope of the investigation.

2. The second step is to design the study. This involves determining the research objectives, the research questions, and the methods to be used. The investigator will also need to determine the sample size and the data collection methods.

3. The third step is to collect the data. This is done by the investigator, who will use the methods determined in the design phase. The data will then be analyzed to determine the results of the investigation.

4. The fourth step is to interpret the results. This involves determining the meaning of the results and how they relate to the research objectives. The investigator will also need to determine the limitations of the study and the implications of the findings.

5. The final step is to write the report. This is a document that describes the results of the investigation and the conclusions drawn from them. It is usually written by the investigator, but may also be written by a member of the research team.

MOOS ZHODATIMURMO

IT SEEMS TO ME THAT OTHER JAPANESE MINISTRIES CONDEMNED WERE THINKING THAT HANAMURAS COMMITMENT TO THE ARRANGEMENTS ON "OMURA" CASE WAS UNFAVOURABLE TO THE JAPANESE SIDE AND HE WAS PLACED IN A HARD POSITION. BUT SINCE THE AGREEMENT HAS ALREADY BEEN REACHED UPON THE ABOVE MEASURES BETWEEN ME AND HANAMURA AS JUSTICE MINISTER OF THE JAPANESE GOVERNMENT, IT CAN NOT BE CHANGED BY HANAMURA UNILATERALLY IN ANY EVENT.

I AM CAREFULLY WATCHING THE REACTION OF THE JAPANESE GOVERNMENT. THIS MATTER AND IN CASE JAPS AND TRYING TO PLAY DUPLICITY ON IT, I WILL IMMEDIATELY BLAST OUT JAPANS FAILURE TO KEEP INTERNATIONAL ARRANGEMENTS. ANY FURTHER DEVELOPMENTS ON THIS ISSUE WILL BE REPORTED TO THE GOVERNMENT IMMEDIATELY.

DETAILS WILL BE REPORTED THROUGH POUCH.

MINISTER KIM.
